MODERN and TIMELESS

This is traditional style at its best with shapes that are both feminine and masculine; soft and bold; functional and comfortable yet never boring. Classic geometric lines that have the “goes with everything” charm of a little black dress with a string of pearls.

MID-CENTURY inspiration

A blast from the past when rock and roll played in the family sedan and wood paneling shared a room with shag carpet. It was a bright age for design, with materials, patterns and shapes that were out of this world — meet “mid-century” modern inspired fixtures. Bold and daring, this style is anything but boring and continues to be reimagined for this century.

It's a new day on the farm, where imperfect is perfect from weathered corners and aged finishes combined with organic shapes to create a fresh contemporary look that is laid-back and inviting. It's nostalgia that looks forward.
