**PRODUCT DETAILS:**

The adventurous Artemis wagon-wheel fixture sports perfectly positioned light sources that span around its frame to provide a multi-directional radiance for any room looking for an industrial take on mid-century minimalism. The shade-less sockets, combined with mismatched plates, create a perfect contrast when adorned with decorative antique bulbs. The fixture sports a two-toned design made up of Noir, and Gold Leaf finishes. The Artemis Series is suspended from a combination chain and stem mounting system, with the potential of adjustability for either.
