# FLAUNT

PAUL MITCHELL

## A NEW STANDARD IN TAPE IN EXTENSIONS

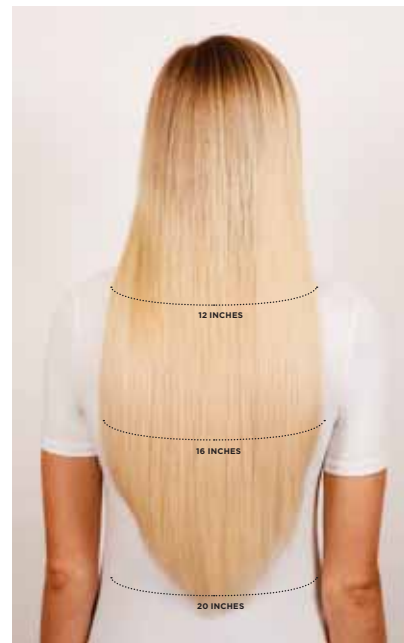

FOR THE HIGH-CALIBER RESULTS YOUR CUSTOMERS  
CRAVE,  
TURN TO THE MOST TRUSTED NAME IN PROFESSIONAL  
BEAUTY:

**PAUL MITCHELL®**

MADE WITH 100% REMY HUMAN HAIR AND  
INNOVATIVE TECHNOLOGY,

**PAUL MITCHELL®**

FLAUNT OFFERS THE  
HIGHEST-QUALITY EXTENSIONS  
ON THE MARKET TODAY.

Our extensions are available in three lengths and come pre-layered, allowing for a seamless blend into the client's natural hair with minimal cutting.

## TECHNOLOGY, QUALITY & INNOVATION

Made with patent-pending technology and the highest-quality Remy human hair, Flaunt extensions are 1.1" wide, an exclusive narrower size that allows your extensions to be precisely contoured to the shape of your head and achieve a perfect fit.

Two different styles—Standard and Deluxe—allow you to choose the best option for different hair types and placements, for a fully customizable installation that blends perfectly with your guests' natural hair.

Paul Mitchell® Flaunt is backed by 40 years of dedication to performance and continuous product innovation. We are committed to placing premium, high-performance products in the hands of stylists, so that they can achieve the very best results for their guests.

## A NEW KIND OF COLOUR SERVICE

It's time to rethink how you approach colour! With Flaunt extensions, stylists can add, enhance or intensify colour in no time. Achieve ombrés, dimensional colours, platinum blondes, and more—with Flaunt, it's fast, it's undetectable and it's chemical-free

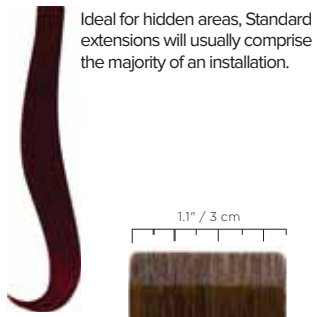

## COMPREHENSIVE WARRANTY

We stand behind our products with a six-month prorated warranty. This warranty covers manufacturing defects. For further details see [flauntpro.com](http://flauntpro.com)

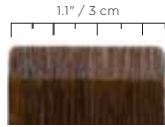

## STANDARD

Ideal for hidden areas, Standard extensions will usually comprise the majority of an installation.

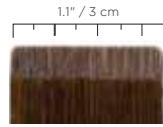

**actual size**  
The 1.1" wide size contours smoothly to the head.

## STANDARD OMBRÉ

Ideal for colour without commitment. Ombre extensions begin with a natural shade which gradually melts into a second and third hue, creating a remarkable gradation that would be extremely difficult to achieve using chemical colour services.

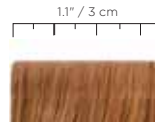

**actual size**  
The 1.1" wide size contours smoothly to the head.

## DELUXE *PATENTED*

Ideal for finer hair and high-visibility areas such as the temples, hairlines or the crown of the head, Deluxe extensions look and feel as if they are growing directly from the scalp. Using a fine needle, each individual strand is inserted by hand into a transparent 1.1"/3 cm adhesive band. In most cases, a Deluxe will be paired with a Standard, with the Deluxe on top and Standard on the bottom.

**actual size**  
The 1.1" wide size contours smoothly to the head.

## DELUXE ROOTED *PATENTED*

Perfect for blonde guests with darker roots, the colour of these extensions transitions from a darker to a lighter hue.

**actual size**  
The 1.1" wide size contours smoothly to the head.

# SAVE THIS SPRING ON MILLENIUM & SILVER SERIES

## SAVE 20%

### SILVER SERIES

- The extremely attractive and sleek lined Silver series has a very offset design for optimum ergonomics. This is a scissor for those who want their creativity to flow. The fully hollow, convex mirror, polished blades are forged from ATS314 carbon steel, making them extra hard wearing due to the added cobalt and the matrix structure of the steel. The flat centre screw system comes with an adjustable key for optimum tension control. Available in both straight (5.0, 5.5 and 6.0 inches) and offset models (5.5, 6.0, 6.5 and 7.0 inches).

### MILLENIUM SERIES

- Available in both offset and straight handle options, the Millenium series personifies superior craftsmanship and uncompromising quality.
- Exceptionally sharp and ergonomic, the Millenium series is also incredibly light and extremely resistant.
- Featuring the patented Disc Operating System, the enclosed ball bearing will not collect dust, hair or product thus minimizing friction making the shears more comfortable to use and ensures the shears have a considerably longer life span than other conventional models.
