STANDARD

Ideal for hidden areas, Standard extensions will usually comprise the majority of an installation.

actual size
The 1.1" wide size contours smoothly to the head.

STANDARD OMBRÉ

Ideal for colour without commitment. Ombre extensions begin with a natural shade which gradually melts into a second and third hue, creating a remarkable gradation that would be extremely difficult to achieve using chemical colour services.

actual size
The 1.1" wide size contours smoothly to the head.

DELUXE *PATENTED*

Ideal for finer hair and high-visibility areas such as the temples, hairlines or the crown of the head, Deluxe extensions look and feel as if they are growing directly from the scalp. Using a fine needle, each individual strand is inserted by hand into a transparent 11¹/₃ cm adhesive band. In most cases, a Deluxe will be paired with a Standard, with the Deluxe on top and Standard on the bottom.

actual size
The 1.1" wide size contours smoothly to the head.

DELUXE ROOTED *PATENTED*

Perfect for blonde guests with darker roots, the colour of these extensions transitions from a darker to a lighter hue.

actual size
The 1.1" wide size contours smoothly to the head.

KXP SERIES combines the excellent features of the acclaimed Green Series with the Disc Operation System of the Millennium Series. The hollow ground convex mirror polished blades are forged from low-wear VG-10 stainless steel alloy. The XP series is characterized by its high durability and hardness. In the trend of ergonomically designed scissors, the XP Series offers an ergonomically designed offset model.

GREEN SERIES The Green Series is forged from high carbon VG-10W steel with convex hollow ground blades honed to a fine mirror polish. The Green Series is designed with a ball bearing tension system which reduces friction and allows you to power through a large section or thick hair, while reducing any fatigue on the fingers and thumb. The Green series texturizer's teeth are tapered towards the inside of the blade which prevents tugging of the hair thus creating a more comfortable experience for your client.
