# OVER 30% OFF DAMASCUS + BLUE SERIES

## DAMASCUS SERIES

These shears are formed by having the smiths apply 8 alternating layers of steel which are slightly thicker than a human hair on top of each other. This process, gives each blade incredible strength and aesthetically, it gives each shear an intricate pattern that is unique to each shear. The blades themselves are incredibly sharp and very powerful. The pivot uses a ball bearing system combined with flat screw technology which allows the shears to cut incredibly smoothly.

## STANDARD

Ideal for hidden areas, Standard extensions will usually comprise the majority of an installation.

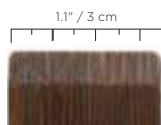

**actual size**  
The 1.1" wide size contours smoothly to the head.

## STANDARD OMBRÉ

Ideal for colour without commitment. Ombre extensions begin with a natural shade which gradually melts into a second and third hue, creating a remarkable gradation that would be extremely difficult to achieve using chemical colour services.

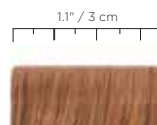

**actual size**  
The 1.1" wide size contours smoothly to the head.

## DELUXE *PATENTED*

Ideal for finer hair and high-visibility areas such as the temples, hairlines or the crown of the head, Deluxe extensions look and feel as if they are growing directly from the scalp. Using a fine needle, each individual strand is inserted by hand into a transparent 1.1"/3 cm adhesive band. In most cases, a Deluxe will be paired with a Standard, with the Deluxe on top and Standard on the bottom.

**actual size**  
The 1.1" wide size contours smoothly to the head.

## DELUXE ROOTED *PATENTED*

Perfect for blonde guests with darker roots, the colour of these extensions transitions from a darker to a lighter hue.

**actual size**  
The 1.1" wide size contours smoothly to the head.
